

## Contacting Actiontec Technical Support from Europe

Re: Contact Information for Actiontec Technical Support has changed for customers living in Europe

Prior to January 11, 2011 there were several telephone numbers that were available for contacting Actiontec Technical Support, depending on which product you possessed and what the issue was with the product.

However, going forward from January 12, 2011, and for the foreseeable future, a single telephone number will serve as the contact point for all Actiontec products. (Use this new telephone number for all issues; questions, troubleshooting, replacement, everything.)

Actiontec Technical Support (New Support Phone Number for Europe): **001-719-884-7440**
